Description

This 2026 MINI Cooper C Sport represents a modern choice for those seeking a compact vehicle with a proven history. Having been driven for only 4,855 miles, this car has been carefully maintained by just one owner since it was first registered. It is powered by a 1.5L petrol engine that meets Euro 6 emission standards, ensuring it aligns with current environmental regulations while providing reliable performance for daily driving. The Sport trim level enhances the driving experience by balancing efficiency with responsiveness, as demonstrated by its ability to accelerate from 0 to 62mph in 8.0 seconds. Comfort is prioritised through the inclusion of a heated steering wheel, which adds a practical touch for colder days. These specific features combine to offer a driving experience that feels both agile and comfortable, setting this particular model apart as a well-equipped option in the current market.
