Description

This 2026 BMW 1 Series 120i M Sport is a refined hatchback that combines modern engineering with the distinctive styling of the M Sport trim. As a vehicle with only one owner, it offers a well-maintained option for those seeking a recent model. Under the bonnet, it features a 1.5 litre petrol hybrid engine that meets Euro 6 emission standards, ensuring it aligns with current environmental regulations while delivering a balanced driving experience. The performance of this model is notable, capable of accelerating from 0 to 62mph in 7.8 seconds, which provides responsive power for both city driving and motorway journeys. To assist with everyday convenience, the vehicle is equipped with the Parking Assistant package. This includes both a rear camera and rear sensors, which work together to make manoeuvring into tight spaces straightforward and stress-free. These integrated features enhance the overall practicality of the car, offering a level of support that simplifies parking tasks compared to vehicles without such technology.
