Description

This 2026 MINI Cooper C Classic is a well-maintained vehicle that has had only one owner since it was first registered. As a modern example of this iconic model, it is powered by a 1.5-litre petrol engine that meets Euro 6 emission standards, ensuring it remains compliant with current environmental regulations. The driving experience is defined by responsive performance, with the car capable of accelerating from 0 to 62mph in 8.0 seconds. Comfort is prioritised through the inclusion of a heated steering wheel, which provides added convenience during colder weather. These specific attributes combine to offer a balanced and enjoyable drive, setting this particular model apart as a practical choice for those seeking a refined and capable hatchback.
