Description

This 2024 BMW 1 Series 128ti LCP is a modern hatchback powered by a 2.0 litre petrol engine that meets Euro 6 emission standards. Having covered 22,287 miles, this vehicle presents a well maintained option for those seeking a recent model. The combination of the 128ti trim and the current mileage makes this a practical choice for drivers looking for a reliable and contemporary vehicle. The performance of this model is a key highlight, capable of accelerating from 0 to 62mph in 6.1 seconds, which provides a responsive driving experience. Practicality is also prioritised, as the vehicle features a large boot space that is made more accessible by the inclusion of an electric bootlid. Visibility and comfort are enhanced by the fitted LED headlights and sun protection glass, ensuring that the car is well equipped for various driving conditions. These features combine to offer a balance of performance and convenience that distinguishes this hatchback from others in its class.
