Description

This 2022 MINI Hatch Cooper Exclusive is a well-maintained vehicle that has had only one owner from new. As a Cooper Exclusive model, it combines the classic MINI design with a refined specification, powered by a 1.5L petrol engine that meets Euro 6 emission standards. This combination of a modern engine and a single-owner history makes it a reliable choice for those seeking a recent, well-cared-for example of this popular hatchback. The driving experience is defined by its responsive performance, capable of accelerating from 0 to 62mph in 8.1 seconds, which provides a lively feel on the road. A standout feature of this particular vehicle is the panoramic glass sunroof, which includes an opening function to allow extra light and air into the cabin. This addition enhances the interior atmosphere, setting it apart from standard models and offering a more open and enjoyable environment for both the driver and passengers.
