Description

This 2026 MINI Cooper S Sport is a well-maintained vehicle that has had only one owner since it was first registered. As a Sport trim variant, it combines the classic MINI design with a more dynamic specification. Under the bonnet, it is powered by a 2.0L petrol engine that meets Euro 6 emission standards, ensuring it remains compliant with current environmental regulations while delivering a responsive driving experience. The performance of this model is a key highlight, capable of accelerating from 0 to 62mph in just 6.6 seconds, which provides a spirited feel on the road compared to standard models. Comfort is also prioritised, as the vehicle comes equipped with a heated steering wheel and heated front seats. These features offer added convenience and warmth during colder weather, making the driving experience more comfortable than in vehicles lacking these specific additions.
