## Description

This 2022 BMW 1 Series 118i M Sport is a refined hatchback that combines modern engineering with the distinctive styling associated with the M Sport trim. Under the bonnet, it is powered by a 1.5 litre petrol engine that meets Euro 6 emission standards, ensuring it remains compliant with current environmental regulations. As a relatively recent model, this vehicle offers a contemporary driving experience, blending the reliability of the BMW brand with the specific performance characteristics of the 118i variant. The vehicle is equipped with LED headlights, which provide clear visibility for night driving and contribute to its modern aesthetic. Performance is responsive, with the car capable of accelerating from 0 to 62mph in 8.5 seconds, offering a balanced level of power for both city driving and motorway journeys. Practicality is also a key strength, as the design includes a large boot space, making it a versatile choice for those who require extra room for luggage or shopping compared to many other hatchbacks in its class.
