Description

This 2026 MINI Cooper C Sport is a modern hatchback that combines compact design with efficient performance. As a single owner vehicle, it has been well maintained and represents a recent addition to the market. Under the bonnet, it is powered by a 1.5 litre petrol engine that meets Euro 6 emission standards, ensuring it remains compliant with current environmental regulations while delivering a reliable driving experience. The Sport trim level enhances the driving experience with specific features designed for comfort and performance. It includes a heated steering wheel, which provides added convenience during colder weather. The vehicle is capable of accelerating from 0 to 62mph in 8.0 seconds, offering a responsive feel on the road that distinguishes it from less dynamic models in its class. These elements combine to create a practical yet engaging car suitable for daily use.
