Description

This 2026 MINI Cooper C Classic is a modern example of the iconic hatchback, presented in the Classic trim level. The vehicle has been maintained by only one owner since its registration, ensuring a clear history for its next driver. Under the bonnet, it is powered by a 1.5 litre petrol engine that meets Euro 6 emission standards, balancing performance with current environmental requirements. The driving experience is defined by responsive performance, with the car capable of accelerating from 0 to 62mph in 8.0 seconds. This capability provides a lively feel on the road that distinguishes it from many other vehicles in its class. Comfort is also a priority, as the car is equipped with a heated steering wheel, which adds a practical touch of luxury for colder days. These combined elements make this MINI a well-rounded choice for those seeking a blend of efficiency, comfort, and engaging handling.
