Description

This 2022 MINI Electric Hatch Cooper SE Level 2 presents an exceptional opportunity with its remarkably low mileage of just 15054 miles, having been cherished by only one owner since new. As an all electric vehicle, this Cooper SE Level 2 variant offers a compelling blend of MINI's signature style and sustainable motoring. Its 33 kWh battery provides a maximum range of 144 miles when new, making it ideal for both city commutes and longer journeys. Experience the exhilarating performance of this MINI Electric Hatch, boasting an impressive 0-62mph acceleration time of just 7.3 seconds, a figure that sets it apart from many other electric vehicles. Charging is convenient, with a full charge at home using a 7kW charger taking approximately 5 hours and 15 minutes, while rapid public charging can replenish the battery from empty to 80% in as little as 36 minutes. This combination of brisk acceleration, efficient charging, and low ownership history makes this 2022 MINI Electric Hatch Cooper SE Level 2 a truly outstanding choice.
