Description

This 2022 MINI Hatch Cooper Exclusive offers a modern driving experience, combining contemporary style with the reliability of a recent registration year. As a Cooper Exclusive variant, this hatchback is powered by a 1.5L petrol engine that meets Euro 6 emission standards. The vehicle is well equipped with the Comfort Plus Pack, which adds convenience through keyless entry, a rear camera, and rear parking sensors to assist with manoeuvring. Inside, the cabin features heated seats for added comfort, while the exterior is finished with darkened rear glass to complete the look. The performance of this MINI is notable, as it is capable of accelerating from 0 to 62mph in 8.3 seconds, providing a responsive feel on the road. This combination of efficient engine technology and the added convenience of the Comfort Plus Pack distinguishes this model from

standard hatchbacks, ensuring that both the driver and passengers benefit from a higher level of specification. By balancing agile performance with practical features designed for daily use, this vehicle presents a well rounded option for those seeking a premium small car.
