Description

With only 8170 miles on the clock, this 2024 MINI Cooper S Sport offers a rare chance to acquire a nearly new vehicle with very low mileage for its age. This particular model is powered by a 2.0L petrol engine that meets Euro 6 emission standards, ensuring it remains compliant with modern environmental regulations. As a Sport trim variant, the car comes well equipped with a heated steering wheel, providing added comfort during colder driving conditions. The performance of this MINI is a significant highlight, as it is capable of accelerating from 0 to 62mph in just 6.6 seconds. This impressive acceleration demonstrates the agile and responsive nature of the S Sport variant, setting it apart from standard models. By combining this spirited performance with the practical benefits of a recent registration year and low usage, this vehicle provides a compelling option for those seeking a dynamic driving experience without compromising on modern reliability.
