Description

This 2026 MINI Cooper C Classic offers the peace of mind that comes with having had only one owner from new. This hatchback is powered by a 1.5L petrol engine that meets Euro 6 emission standards, ensuring it remains compliant with modern environmental regulations. Inside the Classic trim, the cabin is equipped with a heated steering wheel, providing added comfort during colder weather. The performance of this vehicle is a key highlight, as it is capable of accelerating from 0 to 62mph in 8.0 seconds. This brisk acceleration provides a responsive driving experience that sets it apart from many other hatchbacks in its class. By combining efficient engine technology with this level of agility, the car delivers a balanced drive that is both practical for daily use and engaging on the road.
