Description

With only 11,628 miles on the clock, this 2023 MINI Hatch John Cooper Works offers a low mileage example of a high performance vehicle. This specific model is powered by a 2.0L petrol engine that meets Euro 6 emission standards, ensuring it remains compliant with modern environmental regulations. The exterior is finished with distinctive John Cooper Works bonnet stripes and darkened rear glass, providing a sleek and sporty appearance. Inside, the cabin feels open and airy thanks to the inclusion of a panoramic glass sunroof, which features an opening function for added versatility. The performance capabilities of this vehicle set it apart from standard hatchbacks, as it is engineered to achieve 0-62mph in just 6.1 seconds. This acceleration highlights the focus on driving dynamics that defines the John Cooper Works variant, making it a compelling choice for

those who prioritise responsive handling and power. By combining the practical benefits of a compact hatchback with the spirited performance of a dedicated sports trim, this MINI delivers a balanced driving experience that is both engaging and capable for daily use.
